B. RISK FACTORS

These risk factors may be peculiar to the Mutual Fund as well as that attendant with specific policies and objectives of the Schemes.

Standard Risk Factors

- Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the Schemes' objective will be achieved.
- As the price / value / interest rates of the securities in which the Schemes invest fluctuates, the value of your investment in the schemes may go up or down.
- Past performance of the Sponsor / AMC / Mutual Fund or its affiliates does not guarantee the future performance of the Schemes.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Schemes beyond the initial contribution made by it of an amount of ₹ 10 lakhs towards setting up of the mutual fund.
- Baroda Pioneer 90 Day Fixed Maturity Plan - Series 3 and Baroda Pioneer 90 Day Fixed Maturity Plan - Series 4 are only the names of the Schemes and do not, in any manner, indicate either the quality of the Schemes or their future prospects and returns.
- The NAV of the Schemes' Units may be affected by change in the general market conditions, factors and forces affecting capital markets in particular, level of interest rates, various market related factors and trading volumes.
- The present Schemes are not guaranteed or assured return schemes.

- h. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.

Scheme Specific Risk Factors

- a. The Trustees, AMC, Fund, their Directors or their employees shall not be liable for any tax consequences that may arise, in the event that either/ or both the schemes are wound up for the reasons and in the manner provided under the SID & SAI.
- b. Redemption by Unit Holders due to change in the fundamental attributes of the Schemes or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise.
- c. The tax benefits described in the SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Schemes will endure indefinitely. In view of the individual nature of tax consequences, each investor / Unit Holder is advised to consult his/her/its own professional tax advisor.
- d. Investors in the Schemes are not being offered any guaranteed / assured returns.
- e. Baroda Pioneer 90 Day Fixed Maturity Plan - Series 3 & 4 will be investing in debt instruments, Government Securities and money market instruments (such Commercial Paper, Certificate of Deposits, Treasury Bills, term/notice money market, repos and reverse repos). Trading volumes and settlement periods inherently restrict the liquidity of the Schemes' investments. In the event of a restructuring of the Schemes' investment portfolio, these periods may become significant.
- f. Different types of securities in which the Schemes may invest as given in the SID carry different levels of risk. Accordingly the Schemes' risk may increase or decrease depending upon the investment pattern. For e.g. corporate bonds carry a higher amount of risk than Government Securities. Further even among corporate bonds, bonds which are AAA rated, have comparatively less risk than bonds, which are AA rated.
- g. No person has been authorized to issue any advertisement or to give any information or to make any representations other than that contained in this SID. Documents in connection with this new fund offer which are not authorized by the Mutual Fund and any information or representations not contained herein, must not be relied upon as having been authorized by the Mutual Fund.
- h. Debt and money market security investments under the Schemes may also be subject to the following risks :-
- I. Credit risk:** Credit risk is a risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuers' ability to meet the obligations.
 - II. Liquidity risk:** Liquidity risk pertains to how saleable a security is in the market. If a particular security does not have a market at the time of sale, then the scheme may have to bear an impact depending on its exposure to that particular security.
 - III. Interest Rate risk:** Interest rate risk is associated with movements in interest rate, which depends on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk.
 - IV. Reinvestment risk:** This risk arises from uncertainty in the rate at which cash flows from an investment may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- j. Investments in the Schemes made in foreign currency by a Unit Holder are subject to the risk of fluctuation in the value of Indian Rupee.

Risk Factors associated with Listing of Units

- a. Trading of Units on the Exchange may be halted because of market conditions or on account of restrictions imposed by the Exchange Authorities or SEBI. In addition, trading of the Units may be halted due to extraordinary market volatility. There can be no assurance that the requirements of the Exchange necessary to maintain the listing of the

units of the Schemes will remain unchanged. The AMC and/or the Trustees will not be liable for any loss suffered by investors due to delay in listing of units of the Schemes on the Exchange or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.

- b. For units listed on the Exchange, the market price at which they are traded may be at a discount to the NAV of such Units and will fluctuate on account of market supply and demand for the units, and also due to any change in trading regulations by the Exchange or by SEBI or changes in NAV. Hence, Unit holders may find it difficult and/or uneconomical to liquidate their investments at any particular time and must, therefore, be prepared to hold the units until the maturity of the Scheme(s).
- c. Although the Units of the Schemes will be listed on the Exchange, there is no assurance that an active secondary market will develop or be maintained.
- d. The Trustee reserves the right to list the Units of the Schemes on any other recognized stock exchange in India, as they may deem fit, in which case investors may face risks related to an undeveloped market, delay in settlements etc.
- e. There may be acts/omissions on the part of the Exchange, resulting in the cancellation of Unit Holder's orders or the execution of orders on erroneous terms.

Risks associated with Investing in Foreign Securities

The Schemes shall not invest in Foreign Securities.

Risks associated with Short Selling and Securities Lending

The Schemes will not engage in Short Selling and 'Stock Lending' activity.

Risks associated with investing in Derivatives:

The Schemes shall not invest in Derivatives.

C. RISK CONTROL/MITIGATION STRATEGIES

Investment in debt securities carries various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification.

In order to mitigate the various risks, the portfolio of the Schemes will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.

Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. There is a Board level Committee, the Risk & Compliance Committee, which focuses on risk factors and methods and strategies for risk mitigation or migration.

Risk control / Mitigation Strategy is as follows:-

Liquidity Risk

The liquidity of the Schemes' investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.

Interest Rate Risk

Changes in interest rates affect the prices of bonds. If interest rates rise the prices of bonds fall and vice versa. A well-diversified portfolio may help to mitigate this risk. Additionally, the fund will invest in securities maturing on or before the maturity of the fund. Hence, while the interim NAV will fluctuate in response to changes in interest rates, the final NAV will be more stable. To that extent the interest rate risk will be mitigated at the maturity of the schemes.

Volatility Risk

There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The schemes will manage volatility risk through diversification. Further, the fund will invest in a basket of debt and money market securities maturing on or before maturity of the fund with a view to hold them till the maturity of the fund. To that extent the Volatility risk will be mitigated in the schemes.

Credit Risk

Credit risk shall be mitigated by investing in rated papers of the companies having the sound back ground, strong fundamentals and quality of management and financial strength of the Company.

Concentration Risk

Concentrated investment in single security or single issuer - We have internal fund manager guidelines for maximum exposure to a single issuer and also concentration limits on account of large holdings to avoid undue concentration in portfolio.

Event Risk

Price risk due to company or sector specific event - The endeavour is to invest in securities of issuers, which have high balance sheet strength in the investment horizon to eliminate single company risk.

D. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEMES

The Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s). These conditions will be complied with, immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme(s)/Plan(s) shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment of the condition of 25% holding by a single investor on the Date of Allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 Business Days of the date of closure of the New Fund Offer.

E. SPECIAL CONSIDERATION

Investors are urged to study the terms of the SID carefully before investing in these Schemes, and to retain the SID for future reference.

Any tax liability arising post redemption on account of change in the tax treatment with respect to dividend distribution tax, by the tax authorities, shall be solely borne by the investor and not by the AMC, the Trustees or the Mutual Fund.

If, after due diligence, the AMC believes that any transaction is suspicious in nature with respect to money laundering, the AMC shall report such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder, furnish any such information in connection with such terms, to the said competent authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder, without obtaining the prior consent of the investor/ concerned Unit holder/any other person.

D. DEBT AND MONEY MARKET IN INDIA

Debt Market:

The debt market in India consists of gilts, corporate debt papers and other approved securities (Government guaranteed papers). The nature of instruments is in the form of plain vanilla bonds, floaters, zero coupon bonds, deep discounted bonds, securitized papers and structured debt papers. The Wholesale Debt Market segment is available both at NSE and The Bombay Stock Exchange (BSE). The players in the Indian debt market are commercial banks, mutual funds, financial

institutions, insurance companies and others. The Retail secondary debt market is absent in India. The Reserve Bank of India has recently introduced an Online Market (OM) dealing platform for gilts. This is at present available to all participants who have a direct SGL with RBI. At present, the average daily turnover on NSE WDM is around ₹ 1,000 crore and further ₹ 3,000 crore in OM. The corporate debt market is a telephone market with listed securities alone getting reported to NSE after the deal. The derivative market is Over the Counter and is dominated by Interest Rate Swaps.

The likely yields of various instruments mentioned above, and the factors affecting prices of such securities, are as follows :-

1. Shorter term money market instruments currently offer yields between 6% and 8% depending on tenor to maturity.
2. 2-3 year and five year AAA PSU bonds offer yields of around 7.50 % and 8.25 % respectively. Ten year Government securities offer yields of around 7.9%.

Presently, the following is the yield matrix of various instruments :

Instrument	Yields	Liquidity
Central / State Government Securities	6.75% - 8.60%	Very High
PSU Bonds / Corporate debentures	9% - 10.5%	Medium - High
Commercial Papers / Certificate of Deposits	7% - 10.5%	Medium - High
Call / Notice Money	6.6% - 6.8%	Very High

The interest rate market conditions are influenced by the liquidity in the system, credit growth, GDP growth, Inflows into the Country, Currency movement in the Forex market, demand and supply of issues and change in investors' preference. Generally when there is a rise in interest rate, the price of securities fall and vice versa. The extent of change in price shall depend on the rating, tenor to maturity, coupon and the extent of fall or rise in interest rates. Government securities carry zero credit risk, but they carry interest rate risk like any other Fixed Income Securities. Securities which are not quoted on Stock Exchanges carry higher risk than the ones which are listed on the Stock Exchanges. While the securities which are listed on stock exchanges carry less liquidity risk, the ability to liquidate them depends on the secondary debt market volumes. Similarly, money market instruments which are fairly liquid are not listed on exchanges due to their short tenor which may lead to losses when sold before their maturity date. The impact cost of offloading the various asset classes differ depending on market conditions and may impair the value of the securities to that extent.

Money Market :

Money markets in India essentially consist of the call money market (i.e market for overnight and term money

between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), Commercial Papers, Certificate of Deposits (CDs issued by the Banks) and Treasury Bills (issued by RBI).

In the money market, activity levels of government and non-government debt vary from time to time. Instruments that comprise a major portion of money market activity include but are not limited to:

- Overnight Rates;
- Collateralized Borrowing & Lending Obligations (CBLO);
- Repo / Reverse Repo Agreement;
- Treasury Bills;
- Government Securities with a residual maturity of <1 year;
- Commercial Paper;
- Certificate of Deposits.

Apart from these, there are some other options available for short term investments like MIBOR linked debentures with periodic exit options and other such instruments.

The following table gives the prevailing approximate yields on some of the instruments:

Instruments	Yield Range (% per annum)
CBLO	6.4% - 6.6
REPO	6.4% - 6.6
364 days T- Bill	7.6
91 days T- Bill	7.15

The key factors of the investment strategy of the Schemes will be :

1. Identifying attractive opportunities on the basis of the government policies, economic development, monetary policy, research report and overall economic conditions and development.
2. The issuer/companies selection for investment exposure would be based on financial parameters such as fundamentals of business, quality of management, turnover, financial strength of the company and the key earnings drivers, net worth, interest coverage ratio, profitability track record and the liquidity of the securities/instruments.
3. Issuer/Companies, which meet the initial selection norms, will then be evaluated on the financial norms for consideration for investments. The schemes would make its investment universe based on the spread and liquidity, to match the investment horizon with the maturity of the schemes.

4. The Schemes will emphasise on well managed companies, with above average growth prospects, whose debt securities can be purchased at a good yield and are rated as investment grade by a recognised authority like The Credit Rating and Information Services of India Limited (CRISIL), ICRA Limited, Credit Analysis and Research Limited (CARE) etc.
5. Investment in sovereign papers would be based on the interest rate expectations arising out of macroeconomic analysis. This includes analysis of inflation data and trends in macro variables such as credit growth, liquidity, money supply, fiscal numbers and the global interest environments.
6. The Schemes have the flexibility to invest in the entire range of debt instruments and will seek to minimize interest rate risk while avoiding credit risk. The portfolio will be sufficiently diversified by investing in a number of issuers/companies without any restriction of market capitalization across the industries, so as to reduce the risk of a concentrated portfolio.

Portfolio Turnover Policy

The Schemes are closed ended and no redemption / repurchase of units shall be allowed prior to the maturity of the Schemes. The AMC will take advantage of opportunities that present themselves from time to time in the securities market. The fund manager will endeavor to keep the portfolio turnover ratio to the minimum.

INVESTMENTS OF AMC IN THE SCHEMES

The AMC may invest in the Schemes, in the New Fund Offer, such amount, as they deem appropriate. But the AMC shall not be entitled to charge any management fees on their investment in the Schemes. Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI Regulations, which states that the AMC shall not invest in any of its schemes unless full disclosure of its intention to invest has been made in the SID, provided that the AMC shall not be entitled to charge any fees on its investment in the Schemes.

Following inquiry/adjudication proceedings are in progress:

- a) The Bank was one of the bankers to the public issue of shares of Jaltarang Motels Limited ("Jaltarang") in December 1995. SEBI, by its order dated January 19, 2000 directed the Bank to refund the sum of ₹ 4,031,018 being the application money for the shares released by the Bank to the Jaltarang with interest at 15% from March 25, 1996 i.e. the day the Bank allowed withdrawal of the funds by Jaltarang in respect of funds collected from the public issue. The Bank preferred an appeal before the Securities Appellate Tribunal and the Tribunal, by order dated July 27, 2000, rejected the appeal. The bank has filed an appeal (Appeal No.2 of 2000) before the High Court, Mumbai against the said order of the Tribunal. The High Court, Mumbai, on November 13, 2000, granted interim relief of stay of the operation of the orders dated July 27, 2000 of the Securities Appellate Tribunal and January 19, 2000 of SEBI and has further applied for the matter be placed on the board for final hearing. The matter is still pending.
- b) The merchant banking division of the Bank was the pre-issue lead manager for the public issue of shares of Trident Steels Limited ("Trident") in November 1993. SEBI issued a show cause notice dated April 29, 2004 calling upon the merchant banking division of the Bank to show cause why action should not be taken against it for failing in its duty to exercise due diligence in the abovementioned public issue. SEBI alleged that the merchant banking division of the Bank did not disclose the material fact that 750,000 shares out of the pre issue capital of Trident had been pledged by the directors and holders of those shares to the Industrial Finance Branch of the Bank towards enhancement of various credit facilities extended by the Bank to Trident. In October 1989, the directors and holders of those shares had given an undertaking that as long as the dues of Trident to the Bank are not paid in full, they will not transfer, deal with or dispose off equity or preference shares held by them in the company or any shares that might be acquired in future, without prior written consent of the Bank. BOB Caps, in its reply to the show cause notice, has submitted that it was the obligation of Trident to give true disclosures and that any punitive action will lie solely against Trident, its promoters and directors. The matter is still pending.
- c) The Bank had acted as lead managers to the public issue of Kraft Industries Limited (" Kraft") in May 1995. It is alleged that the Managing Director and Promoter of Kraft did not possess the qualifications as mentioned in the prospectus. SEBI has asked for qualification certificates/copies from the Bank. The Managing Director of Kraft has reported having lost the certificates in transit. The Bank has replied accordingly to SEBI. Inquiry is still pending.

- d) M.S. Shoes East Limited (MS Shoes) came out with a public issue of 17,584,800 zero interest unsecured fully convertible debentures at ₹ 199 each aggregating ₹ 3499,375,000 in February 1995. The Bank was one of the lead managers to the issue with responsibility for post-issue management and had underwritten the issue upto ₹ 150,000,000. After the closure of the issue, MS Shoes complained to the underwriters that some of the cheques accompanying the application for subscription were returned unpaid resulting in the collected amount falling short of the minimum subscription amount. Therefore MS Shoes called upon the underwriters to discharge their underwriting liability to the extent of proportionate devolution and raised a claim on the Bank for ₹ 116,665,043 towards devolution of underwriting liability. The Bank declined the liability on the ground that since the issue was declared oversubscribed by the Registrars to the issue no liability can devolve on the Bank under its underwriting commitment. SEBI had issued an enquiry notice dated July 20, 1995 to the Bank, but closed the matter, vide letter dated June 17, 1996, without imposing any penalty on the Bank. Pursuant to a complaint filed on behalf of MS Shoes, FIR No. 415 of 2000 dated October 1, 2000 was registered by Vikaspuri Police Station Delhi under sections 406 and 420 of the Indian Penal Code against BOB Capital Markets Limited, the Bank, its principal officers including the then CMD, and others, alleging cheating and breach of trust. In the complaint it has been submitted that the accused fraudulently and illegally induced MS Shoes to bring cheques from its associates and acquaintances so as to close the issue within four days, thereby representing to the public that the issue had been subscribed in full within the first four days. On this basis, the issue was represented to have been more than 90% subscribed and was closed by the accused. It is further submitted that the subscription having fallen down to about 40% within 30 days of the closure of the public issue, the underwriters were called to subscribe for the same in proportion, but many of the underwriters including the Bank did not obtain subscription as per the agreed underwriting amount. The High Court, New Delhi, by order dated December 11, 2000 in Criminal Writ No. 1221 of 2000 and Criminal Writ No. 1219 of 2000, ordered transfer of FIR No. 415 of 2000 to the Central Bureau of Investigation (CBI) and the same has been registered with the CBI, New Delhi as Crime No. RC.SIA-2001-E-0002 dated March 9, 2001. Investigation by the CBI is still pending.
